EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The period for seeking court review of the decision by the Board of Patent Appeals and Interferences rendered July 21, 2004 has expired and no further action has been taken by appellant. The proceedings as to the rejected claims are considered terminated; see 37 CFR 1.197(c).

Pursuant to MPEP § 2114.06, the application has been amended as follows:

Claims 1-14 and 21-39 have been canceled.

The following is an examiner's statement of reasons for allowance:

The allowability of claims 15-20, 40 and 42-43 has been reconsidered pursuant to the Board decision. The background of the invention on pages 1-4 of the specification does not expressly state that the typical ignition system described enables the engine firing sequence thereby enabling the engine to start regardless of rotational direction. The specification only mentions that typical enablement of the engine firing sequence is delayed until a third indexing marker is detected to determine rotational direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
